PROFESSIONAL SUMMARY

I'm a Computer Science student with hands-on experience in frontend web development. Proficient in **C++**, **JavaScript**, **TypeScript**, **React**, **Next.js**, **Tailwind CSS**, and **Node.js**, I'm passionate about creating clean, user-friendly web applications. While I have a strong foundation in **frontend development**, I'm actively **learning backend technologies**. I'm eager to contribute my skills and continue growing in a dynamic development environment through an internship opportunity.

PROJECTS

1. Personal Portfolio

I built this project using React, Tailwind CSS, and Framer Motion, focusing on smooth animations, responsiveness, and a clean dark mode design. It's designed to look great on all devices and feel modern and interactive.

2. Guardin Vets

A web app for pet health tracking and online vet consultations, built using React.js, Tailwind CSS, and Next.js. It allows users to monitor their pet's health, book virtual appointments with vets, and access medical records—all through a responsive and user-friendly interface.
